INDEPENDENCE™ IS UNIQUE AND UNCOMPROMISING.

Its distinctive surface is the product of an unusual color blending process, but its underlying character comes from our patented Shangle® design, featuring a one-piece full-size base shingle, random laminated tabs and deep shadow lines for a dramatic, dimensional appearance no other asphalt shingle can claim.

And to ensure its longevity, a special formulation of embedded copper granules is warranted to protect your roof for a full 10 years against the streaking and discoloration that can be caused by airborne algae.

but otherwise, in a class by itself
