Parsippany, NJ 07054

Phone: 1-800-766-3411

Project:

Subject: GAF Timberline® HDZ Shingles

To Whom It May Concern:

It is our understanding you are inquiring about cutting the GAF Timberline® HDZ Shingles, dimensions approximately 13 1/4" x 39 3/8" with a 5 5/8" exposure to repair the roof by cutting down the shingle to a smaller size in the field of the roof.

This is to confirm that GAF does not recommend cutting the GAF Timberline® HDZ Shingles, dimensions approximately 13 1/4" x 39 3/8" with a 5 5/8" exposure to repair the roof with GAF shingles or other manufacturer's shingles that are smaller in size in the field of the roof as they may not be compatible when sealing to one another.

If you have any further questions, please contact us at 800-766-3411.

Sincerely,

Erica Lee
