RE: IKO Gentry and IKO Marathon Plus AR

To Whom It May Concern:

Please be advised the IKO Gentry shingles, size 36" x 12 1/4" with a 5 1/8" exposure, were discontinued and are no longer available. Also, IKO no longer makes standard size 3-tabs, so there is not a replacement available for the IKO Gentry shingles.

The Marathon Plus AR are metric size shingle at 39 3/8" x 13 1/4" with a 5 5/8" exposure. They are currently only available in select markets in Dual Black and Weatherwood color.

Please be advised that IKO does not recommend the mixing of these shingles as this approach will create performance and color matching issues because they are not compatible. The new shingles will, of course, have new colored roofing granules compared to the old colored granules of the existing roof. Because of the natural effects of weathering, these old and new colored granules will not have the same appearance. To add, the old shingles will have a degree of brittleness, making it difficult to weave new shingles. For the best performance, all shingles on any given roof should be the same (dimension, specification, etc.). If the customer chooses to mix these shingles, IKO assumes no responsibility or liability for any issues that may occur from this method.

If you have any questions, please contact the Warranty Services Department at 800-433-2811, Monday through Friday 8:00 am to 5:00 pm Central Standard time, or via U.S. Mail.

Sincerely,

*The Warranty Services Department (US)*
