WeatherGuard HP® and Duration STORM® Mixability

Dear Valued Customer:

WeatherGuard HP® shingles were discontinued in 2022. Due to potential variations in color and differences in shingle design it is not recommended to combine WeatherGuard HP® and TruDefinition® Duration STORM® shingles on the same roof.

Please contact your Owens Corning Roofing Area Sales Manager, email answers.roofing@owenscorning.com, or or call 1-800-Get-Pink® (1-800-438-7465), if you have any questions. Thank you for selecting an Owens Corning roofing product.

Sincerely,

A handwritten signature in black ink, appearing to read "Nicole Howe".
